FUND SUMMARY

Investment Objective: The Fund's investment objective is long-term capital appreciation.

Fees and Expenses of the Fund: The following table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)	Investor Class
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	None
Maximum Deferred Sales Charge (Load) (as a % of original purchase price)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None
Redemption Fee (as a % of amount redeemed, if sold before 30 days)	2.00%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.50%
Distribution and Service (12b-1) Fees	0.25%
Other Expenses	0.61%
Interest Expenses	0.26%
Acquired Fund Fees and Expenses ⁽¹⁾	0.00%
Total Annual Fund Operating Expenses	2.62%

(1) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial statements include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in other investment companies.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$265	\$815	\$1,391	\$2,955

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal period, the Fund's portfolio turnover was 55% of the average value of its portfolio.

Principal Investment Strategies: The Fund's adviser seeks to achieve the Fund's investment objective by investing primarily in a combination of long and short positions in (1) common stock of U.S. companies of any capitalization; (2) American depository receipts ("ADRs") representing common stock of foreign companies; (3) investment grade fixed income securities; (4) exchange-traded funds ("ETFs") that invest primarily in (i) common stocks of U.S. companies, (ii) ADRs or (iii) investment grade fixed income securities; and (5) options on common stock, ADRs and ETFs. The Fund defines investment grade fixed income securities as those rated Baa3 or higher by Moody's, or BBB- or higher by S&P, or if not rated, determined by the adviser to be of comparable quality.

The Fund's adviser anticipates focusing, from time to time, more than 25% of the Fund's portfolio in the securities of companies in one or more of the following sectors: (1) technology, (2) financial services and (3) healthcare. The adviser defines technology companies as those principally engaged in research, development or manufacturing of computer related products including hardware, software and computer services; communications related products and services including telephony, satellite or wireless communications; manufacturing related products that rely upon scientific innovation. The adviser defines financial service companies as those principally engaged in commercial or retail banking, specialty finance, brokerage, investment banking, investment management or insurance. The adviser defines healthcare companies as those principally engaged in the discovery, development, manufacture or delivery of biotechnology, medical devices, pharmaceuticals, health care supplies. The adviser selects securities based on fundamental, bottom-up research. The adviser looks for some or all of the following characteristics in a company:

- Exceptional growth prospects
- Quality management
- Niche business segment
- High barriers to entry

The Fund may also employ leverage including bank borrowing of up to 33% of the Fund's assets (defined as net assets plus borrowing for investment purposes). The Fund may also short sell securities that the adviser believes are overvalued or as a means of hedging all or a portion of the Fund's portfolio. The Fund may also engage in covered call writing against its portfolio of common stocks, ADRs or ETFs. Additionally, the Fund may purchase call options as a temporary substitute for common stocks, ADRs or ETFs. The adviser anticipates investing in fixed income securities that it believes are undervalued and have the potential for capital appreciation in addition to providing income. In general, the adviser anticipates investing up to 20% of Fund assets in fixed income securities.

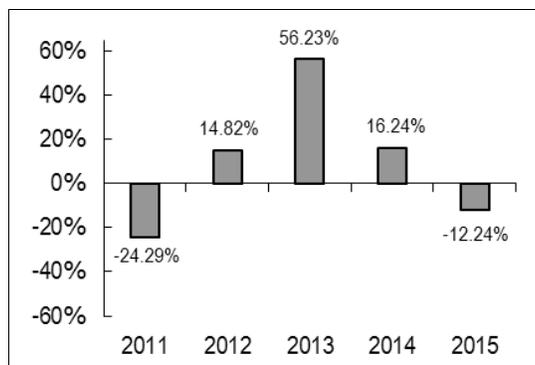

The Fund is non-diversified, which means that it can invest a greater percentage of its assets in any one issuer than a diversified fund. The Fund will typically have fewer than 30 investments at any time. In general, the adviser buys securities that it believes are undervalued and sells a security if its price target is achieved, if the fundamentals have deteriorated or if, in the opinion of the adviser, the security is no longer attractive for investment purposes. The adviser sells short securities that it believes are overvalued or to hedge Fund investments and buys back (covers) these securities if their price target is achieved or the adviser believes the security is no longer attractive for short-sale investment purposes. The Fund's adviser may engage in active and frequent trading of the Fund's portfolio securities to achieve the Fund's investment objective.

Principal Investment Risks: *As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund's net asset value and performance.*

- *Derivatives Risk.* Even a small investment in derivatives (which include options on common stocks, ADRs and ETFs) may give rise to leverage risk, and can have a significant impact on the Fund's performance. Derivatives are also subject to credit risk and liquidity risk.
- *ETF Risk.* ETFs are subject to investment advisory fees and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in stocks and bonds. Each ETF is subject to specific risks, depending on its investments.
- *Fixed Income Risk.* When the Fund invests in fixed income securities directly or indirectly by investing in mutual funds that invest primarily in fixed income securities, the value of the Fund will fluctuate with changes in interest rates. Defaults by fixed income issuers in which the Fund invests will also harm performance.
- *Foreign Investment Risk.* Foreign investing, including through ADRs, involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards.
- *Issuer-Specific Risk.* The value of a specific security can be more volatile than the market as a whole and may perform worse than the market as a whole.
- *Leveraging Risk.* The use of leverage, such as borrowing money to purchase securities, will cause the Fund to incur additional expenses and magnify the Fund's gains or losses.
- *Management Risk.* The adviser's judgments about the potential appreciation of a particular security or instrument in which the Fund invests may prove to be incorrect.
- *Non-Diversification Risk.* The Fund has a greater potential to realize losses upon the occurrence of adverse events affecting a particular issuer.
- *Sector Risk.* The value of securities from a specific sector can be more volatile than the market as a whole and may be subject to economic or regulatory risks different than the economy as a whole. The technology sector may be subject to rapid obsolescence, the financial services sector may be subject to unfavorable changes in government regulation or funding costs, and the healthcare sector may be subject to expiration of patent rights and unfavorable changes in government regulation.
- *Short Sale Risk.* Positions in shorted securities are often speculative and riskier than "long" positions (purchases). Unlike long positions, losses on short positions are potentially unlimited.
- *Small and Medium Capitalization Stock Risk.* Stocks of small and medium capitalization companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.
- *Stock Market Risk.* Stock prices can fall rapidly in response to developments affecting a specific company or sector, or to changing economic, political or market conditions.

Performance: The bar chart and performance table below show the variability of the Fund's returns, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund's Investor shares for the full calendar year since the Fund's inception. The performance table compares the performance of the Fund Investor shares is over time to the performance of a broad-based securities market index. You should be aware that the Fund's past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Updated performance information is available at no cost by calling 1-800-672-9152.

Performance Bar Chart For Calendar Years Ended December 31,

Best Quarter: 1st Quarter 2012 39.69%
Worst Quarter: 3rd Quarter 2011 (21.13)%

Performance Table
Average Annual Total Returns
(For periods ended December 31, 2015)

	One Year	Five Years	Since Inception (3/17/10)
Return before taxes	(12.24)%	6.74%	6.24%
Return after taxes on distributions	(12.24)%	6.74%	6.24%
Return after taxes on distributions and sale of Fund shares	(6.93)%	5.28%	4.91%
S&P 500® Index	1.38%	12.57%	12.52%

The S&P 500® Index is an unmanaged market capitalization-weighted index of 500 of the largest capitalized U.S. domiciled companies. Index returns assume reinvestment of dividends. Unlike the Fund's returns, however, index returns do not reflect any fees or expenses. An investor cannot invest directly in an index.

After-tax returns are calculated using the highest historical individual federal marginal income tax rate and do not reflect the impact of state and local taxes. Actual after-tax returns depend on a shareholder's tax situation and may differ from those shown. The after-tax returns are not relevant if you hold your Fund shares in tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRA").

Investment Adviser: Biondo Investment Advisors, LLC is the Fund's investment adviser.

Investment Adviser Portfolio Managers: Joseph R. Biondo and Joseph P. Biondo are each co-portfolio managers. The portfolio managers have served the Fund in their respective capacity since it commenced operations in 2010. Each portfolio manager is jointly and primarily responsible for the day-to-day management of the Fund.

Purchase and Sale of Fund Shares: The minimum initial investment in the Fund is \$1,000 for regular accounts and \$500 for retirement plans, and the minimum subsequent investment is \$100. You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open. Redemption requests may be made in writing, by telephone, or through a financial intermediary and will be paid by ACH, check or wire transfer.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-free plan.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective: The Fund's investment objective is long-term capital appreciation. The Fund's investment objective may be changed by the Fund's Board of Trustees upon 60 days' written notice to shareholders.

Principal Investment Strategies: The Fund's adviser seeks to achieve the Fund's investment objective by investing primarily in a combination of long and short positions in (1) common stock of U.S. companies; (2) American depositary receipts ("ADRs") representing common stock of foreign companies; (3) fixed income securities of investment grade quality; (4) exchange-traded funds ("ETFs") that invest primarily in (i) common stocks of U.S. companies, (ii) ADRs or (iii) investment grade fixed income securities; and (5) options on common stock, ADRs and ETFs. The Fund defines investment grade fixed income securities as those rated Baa3 or higher by Moody's, or BBB- or higher by S&P, or if not rated, determined by the adviser to be of comparable quality.

The Fund's adviser anticipates focusing, from time to time, more than 25% of the Fund's portfolio in the securities of companies in one or more of the following sectors: (1) technology, (2) financial services and (3) healthcare. The adviser defines technology companies as those principally engaged in research, development or manufacturing of computer related products including hardware, software and computer services; communications related products and services including telephony, satellite or wireless communications; manufacturing related products that rely upon scientific innovation. The adviser defines financial service companies as those principally engaged in commercial or retail banking, specialty finance, brokerage, investment banking, investment management or insurance. The adviser defines healthcare companies as those principally engaged in the discovery, development, manufacture or delivery of biotechnology, medical devices, pharmaceuticals, health care supplies.

The adviser selects equity securities based on fundamental, bottom-up research. These equity securities consist of common stocks and securities having the characteristics of common stocks that are issued by companies with consistent records of financial performance and strong management teams. Other factors that influence investment decisions include economic and technical analysis. The Fund will invest in domestic companies, but also may invest in securities of foreign issuers.

The adviser looks for some or all of the following characteristics in a company:

- Quality management with direct ownership
- Market leadership
- Strong investment in research & development
- High barriers to entry, including patents, distribution systems, etc.
- New product innovation
- Recurring revenues from disposable products or demand
- Consistent record of financial performance
- Above average expected growth rates in revenues and earnings
- Superior corporate governance
- Attractive valuation

The Fund may, from time to time, invest in fixed income securities that it believes have the potential for capital appreciation while providing interest income or if the adviser believes the equity markets are over-valued. Fixed income securities will primarily consist of government and corporate bonds that are above investment grade. The Fund may invest in ETFs when the adviser wishes the Fund to have representation in a certain sector or region but cannot uncover an individual company that meets its investment criteria.

The Fund may also employ leverage including bank borrowing of up to 33% of the Fund's assets (defined as net assets plus borrowing for investment purposes). The Fund may also short sell securities that the adviser believes are overvalued or as a means of hedging all or a portion of the Fund's portfolio. The Fund may also engage in covered call writing against its portfolio of common stocks, ADRs or ETFs. Additionally, the Fund may purchase call options as a temporary substitute for common stocks, ADRs or ETFs. Call options give the holder the right but not the obligation to purchase a common stock or other security at a fixed price during or at the end of a set time period.

The Fund is non-diversified, which means that it can invest a greater percentage of its assets in any one issuer than a diversified fund. The Fund will typically have fewer than 30 investments at any time. In general, the adviser buys securities that it believes are undervalued and sells a security if its price target is achieved, if the fundamentals have deteriorated or if, in the opinion of the adviser, the security is no longer attractive for investment purposes. The adviser sells short securities that it believes are overvalued or to hedge Fund investments and buys back (covers) these securities if their price target is achieved or the adviser believes the security is no longer attractive for short-sale investment purposes. The Fund's adviser may engage in active and frequent trading of the Fund's portfolio securities to achieve the Fund's investment objective.

Principal Investment Risks:

- *Derivatives Risk.* Derivative securities are subject to changes in the underlying securities or indices on which such transactions are based. There is no guarantee that the use of derivatives for investment or hedging purposes will be effective or that suitable transactions will be available. Even a small investment in derivatives (which include options on stocks, ADRs and ETFs) may give rise to leverage risk, and can have a significant impact on the Fund's exposure to securities markets values and interest rates. Derivatives are also subject to credit risk (the counterparty may default) and liquidity risk (the Fund may not be able to sell the security or otherwise exit the contract in a timely manner).
 - *Covered Call Option Risk.* When the Fund sells covered call options, it receives cash but limits its opportunity to profit from an increase in the market value of the security beyond the exercise price (plus the premium received). The seller (writer) of a call option which is covered (e.g., the writer holds the underlying security) assumes the risk of a decline in the market price of the underlying security below the purchase price of the underlying security less the premium received, and gives up the opportunity for gain on the underlying security above the exercise price of the option. In a rapidly rising market, the Fund could significantly underperform the market. The gain on the underlying stock will be equal to the difference between the exercise price and the original purchase price of the underlying security, plus the premium received. The gain may be less than if the Fund had not sold an option on the underlying security. If a call expires unexercised, the Fund realizes a gain in the amount of the premium received, although there may have been a decline (unrealized loss) in the market value of the underlying securities during the option period which may exceed such gain. If the underlying securities should decline by more than the option premium the Fund received, there will be a loss on the overall position.
- *ETFs Risk.* The Fund may invest in exchange traded funds ("ETFs"). As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETF shares and may be higher than other mutual funds that invest directly in stocks and bonds. You will indirectly bear fees and expenses charged by the ETFs in addition to the Fund's direct fees and expenses. Additional risks of investing in ETFs are described below:
 - *Underlying ETF Strategies Risk.* Each ETF is subject to specific risks, depending on the nature of the ETF. These risks could include equity risk, liquidity risk, sector risk, foreign and emerging market risk, as well as risks associated with fixed income securities.
 - *Tracking Risk.* Investment in the Fund should be made with the understanding that the ETFs in which the Fund invests will not be able to replicate exactly the performance of the indices they track because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities. In addition, the ETFs in which the Fund invests will incur expenses not incurred by their applicable indices. Certain securities comprising the indices tracked by the ETFs may, from time to time, temporarily be unavailable, which may further impede the ETFs ability to track their applicable indices.
- *Fixed Income Risk.* When the Fund invests in fixed income securities or Underlying Funds that invest primarily in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Other risk factors impacting fixed income securities include credit risk, maturity risk, market risk, extension risk, illiquid securities risk, foreign securities risk, prepayment risk and investment-grade securities risk. These risks could affect the value of a particular investment by the Fund, possibly causing the Fund's share price and total return to be reduced and fluctuate more than other types of investments.
- *Foreign Investment Risk.* The Fund could be subject to greater risks because the Fund's performance may depend on factors other than the performance of securities of U.S. issuers. Changes in foreign economies and political climates are more likely to affect the Fund than a mutual fund that invests exclusively in U.S. dollars and U.S. Issuers. The value of foreign currency denominated securities or foreign currency contracts is also affected by the value of the local currency relative to the U.S. dollar. There may also be less government supervision of foreign markets, resulting in non-uniform accounting practices and less publicly available information about issuers of foreign currency denominated securities. The value of foreign investments, including foreign currency denominated investments, may be affected by changes in exchange control regulations, application of foreign tax laws (including withholding tax), changes in governmental administration or economic or monetary policy (in this country or abroad) or changed circumstances in dealings between nations. In addition, foreign brokerage commissions, custody fees and other costs of investing in foreign securities are generally higher than in the United States. Investments in foreign issues, whether denominated in U.S. dollars or foreign currencies, could be affected by other factors not present in the United States, including expropriation, armed conflict, confiscatory taxation, and potential difficulties in enforcing contractual obligations.

- *Issuer-Specific Risk.* The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller sized issuers can be more volatile than that of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- *Leveraging Risk.* The use of leverage, such as borrowing money to purchase securities, investing in call options and short selling will magnify the Fund's gains or losses. The use of leverage may also cause the Fund to have higher expenses (especially interest and dividend expenses) than those of equity mutual funds that do not use such techniques. Using derivatives to increase the Fund's combined long and short exposure creates leverage, which can amplify the effects of market volatility on the Fund's share price and make the Fund's returns more volatile. Selling securities short will also create leverage. The use of leverage may cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations.
- *Management Risk.* The adviser's judgments about the attractiveness, value and potential appreciation of a particular security derivative or asset in which the Fund invests or sells short may prove to be incorrect and may not produce the desired results.
- *Non-Diversification Risk.* The Fund is a non-diversified investment company, which means that more of the Fund's assets may be invested in the securities of a single issuer than could be invested in the securities of a single issuer by a diversified investment company. This may make the value of the Fund's shares more susceptible to certain risks than shares of a diversified investment company. As a non-diversified fund, the Fund has a greater potential to realize losses upon the occurrence of adverse events affecting a particular issuer.
- *Sector Risk.* The value of securities from a specific sector can be more volatile than the market as a whole and may be subject to economic or regulatory risks different than the economy as a whole. Technology companies may be subject to rapid product obsolescence (especially when they have limited product lines), patent expiration or diminished patent protection and loss of key technology or scientific development personnel. Financial services companies may be subject to unfavorable changes in government regulation, rising funding costs, increased borrower default rates and loss of access to capital markets. Healthcare companies may be subject to expiration of patent rights, unfavorable changes in government regulation, failure of products that are in development phases and increased costs of product development or licensing.
- *Short Sale Risk.* The Fund engages in short selling activities, which are significantly different from the investment activities commonly associated with conservative stock funds. Positions in shorted securities are often speculative and riskier than "long" positions (purchases). You should be aware that any strategy that includes selling securities short could suffer significant losses. Unlike long positions, losses on short positions are potentially unlimited. Short selling will also result in higher transaction costs (such as interest and dividends), which reduce the Fund's return, and may result in higher taxes.
- *Small and Medium Capitalization Stock Risk.* Stocks of small and medium capitalization companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general. These companies may have narrower markets, limited product lines, fewer financial resources, and they may be dependent on a limited management group. Investing in lesser-known, small and medium capitalization companies involves greater risk of volatility of the Fund's net asset value than is customarily associated with larger, more established companies. Often smaller and medium capitalization companies and the industries in which they are focused are still evolving and, while this may offer better growth potential than larger, more established companies, it also may make them more sensitive to changing market conditions. Small cap companies may have returns that can vary, occasionally significantly, from the market in general.
- *Stock Market Risk.* Stock markets can be volatile. In other words, the prices of stocks can fall rapidly in response to developments affecting a specific company or sector, or to changing economic, political or market conditions. The Fund's investments may decline in value if the stock markets perform poorly. There is also a risk that the Fund's investments will under-perform either the securities markets generally or particular segments of the securities markets.

Temporary Investments: To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure: A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information. The Fund will post a complete list of its holdings on the Adviser's website at www.thebiondogroup.com thirty (30) days after each month end. Shareholders may request portfolio holdings schedules at no charge by calling 1-800-672-9152.

Cybersecurity: The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser: Biondo Investment Advisors, LLC, located at 540 Routes 6 & 209, PO Box 909, Milford, Pennsylvania 18337, serves as investment adviser to the Fund and is registered as an investment adviser with the Securities and Exchange Commission. Subject to the authority of the Board of Trustees, the adviser is responsible for management of the Fund's investment portfolio. The adviser is responsible for selecting the Fund's investments according to the Fund's investment objective, policies and restrictions. The adviser was established in April 2004.

Biondo Investment Advisors, LLC is an independent, client-focused registered investment adviser that helps foundations, pensions and profit-sharing plans, trusts, estates, charitable organizations, corporations or other business entities, educational institutions, endowments, investment companies, institutions and high net-worth individuals and their families create and preserve wealth. Biondo Investment Advisors, LLC is affiliated with Biondo Asset Management, LLC, a member of FINRA and SIPC. Both firms are owned by The Biondo Group, LLC. Biondo Investment Advisors, LLC manages assets of approximately \$394 million as of December 31, 2015. Mr. Joseph R. Biondo is the Chief Executive Officer and Mr. Joseph P. Biondo is the Chief Investment Officer of the Adviser and they are Co-Portfolio Managers of the Fund.

Pursuant to an advisory agreement between the Fund and Biondo Investment Advisors, LLC, the adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.50% of the Fund's average daily net assets. During the fiscal year ended December 31, 2015, the adviser earned management fees equal to 1.50% of the average net assets of the Fund. A discussion regarding the basis for the Board of Trustees' approval of the advisory agreement is available in the Fund's annual shareholder report dated December 31, 2015.

Portfolio Managers: As co-portfolio managers, Joseph R. Biondo and Joseph P. Biondo, each share primary responsibility for the day-to-day management of the Fund and have served the Fund since it commenced operations in 2010.

Joseph R. Biondo

Joseph (Joe) R. Biondo Founder and Senior Portfolio Manager of Biondo Investment Advisors, LLC, began his career in financial services with Loeb Rhoades, Inc., a predecessor firm of Smith Barney. He began managing portfolios in 1991 at Smith Barney before forming Biondo Investment Advisors, LLC in 2004. As Portfolio Manager and key member of the investment team, Joe brings in-depth experience and expertise to managing clients' portfolios. He is a graduate of the New York Institute of Finance. Joe serves as an Honorary Trustee for Avon Old Farms School, a Director of the Newton Memorial Hospital Foundation and as the Chairman of The Ingeborg A. Biondo Memorial Foundation.

Joseph P. Biondo

Joseph P. Biondo, Chief Executive Officer, Chief Investment Officer and Portfolio Manager, began his career with Prudential Securities in 1997. In 1999 he joined the Biondo team managing assets at Smith Barney. In 2004, he became a partner in Biondo Investment Advisors, LLC. He leads the firm's Investment Committee and oversees the Equity Research team. Joseph graduated from The Wharton School at the University of Pennsylvania earning a degree in Economics with concentrations in Entrepreneurial Management, Finance and Marketing. He served as the National Family Teams Co-Chair for the 2013 March for Babies sponsored by the March of Dimes. Joseph is also a Director of the Ingeborg A. Biondo Memorial Foundation, the President of the Board for Center for Developmental Disabilities, and a member of the Pope John High School Endowment Committee.

The Fund's Statement of Additional Information provides additional information about each portfolio manager's compensation structure, other accounts managed by the portfolio managers, and the portfolio managers' ownership of Fund shares.

Prior Performance Information

Joseph R. Biondo and Joseph P. Biondo are responsible for managing separate accounts for clients of the adviser, a portion of which are invested in the "Focus Strategy." This strategy employs the same features of the Fund's principal investment strategies including investment in common stocks, ADRs, fixed income securities, ETFs and options using the adviser's investment principals. Consequently, this "Focus Strategy" is substantially similar to the strategy employed by the Fund. Joseph R. Biondo and Joseph P. Biondo have full discretionary authority over the selection of investments for those Focus Strategy accounts, and they intend to use substantially the same goals and style of investment management in managing the Fund. The Biondo Focus Fund will have substantially the same investment objective, policies and strategies as the Focus Strategy accounts. However, they will employ short selling as an additional and different strategy.

The information for the Focus Strategy accounts, which includes all substantially similar accounts, is provided to show the past performance of those accounts as measured against the specified benchmark and index. The performance of the Focus Strategy accounts does not represent the historical performance of the Fund, and should not be considered indicative of future performance of the Focus Strategy accounts or the Fund. Future results will differ from past results because of differences in future behavior of the various investment markets, in brokerage commissions, account expenses, the size of positions taken in relation to account size and diversification of securities, and the timing of purchases and sales, among other things. In addition, the Focus Strategy accounts are not subject to certain investment limitations and other restrictions imposed by the 1940 Act and the Internal Revenue Code which, if applicable, might have adversely affected the performance of the Focus Strategy accounts during the periods shown. Performance of the Fund for future periods will definitely vary, and some months and some quarters will result in negative performance; indeed, some future years may have negative performance.

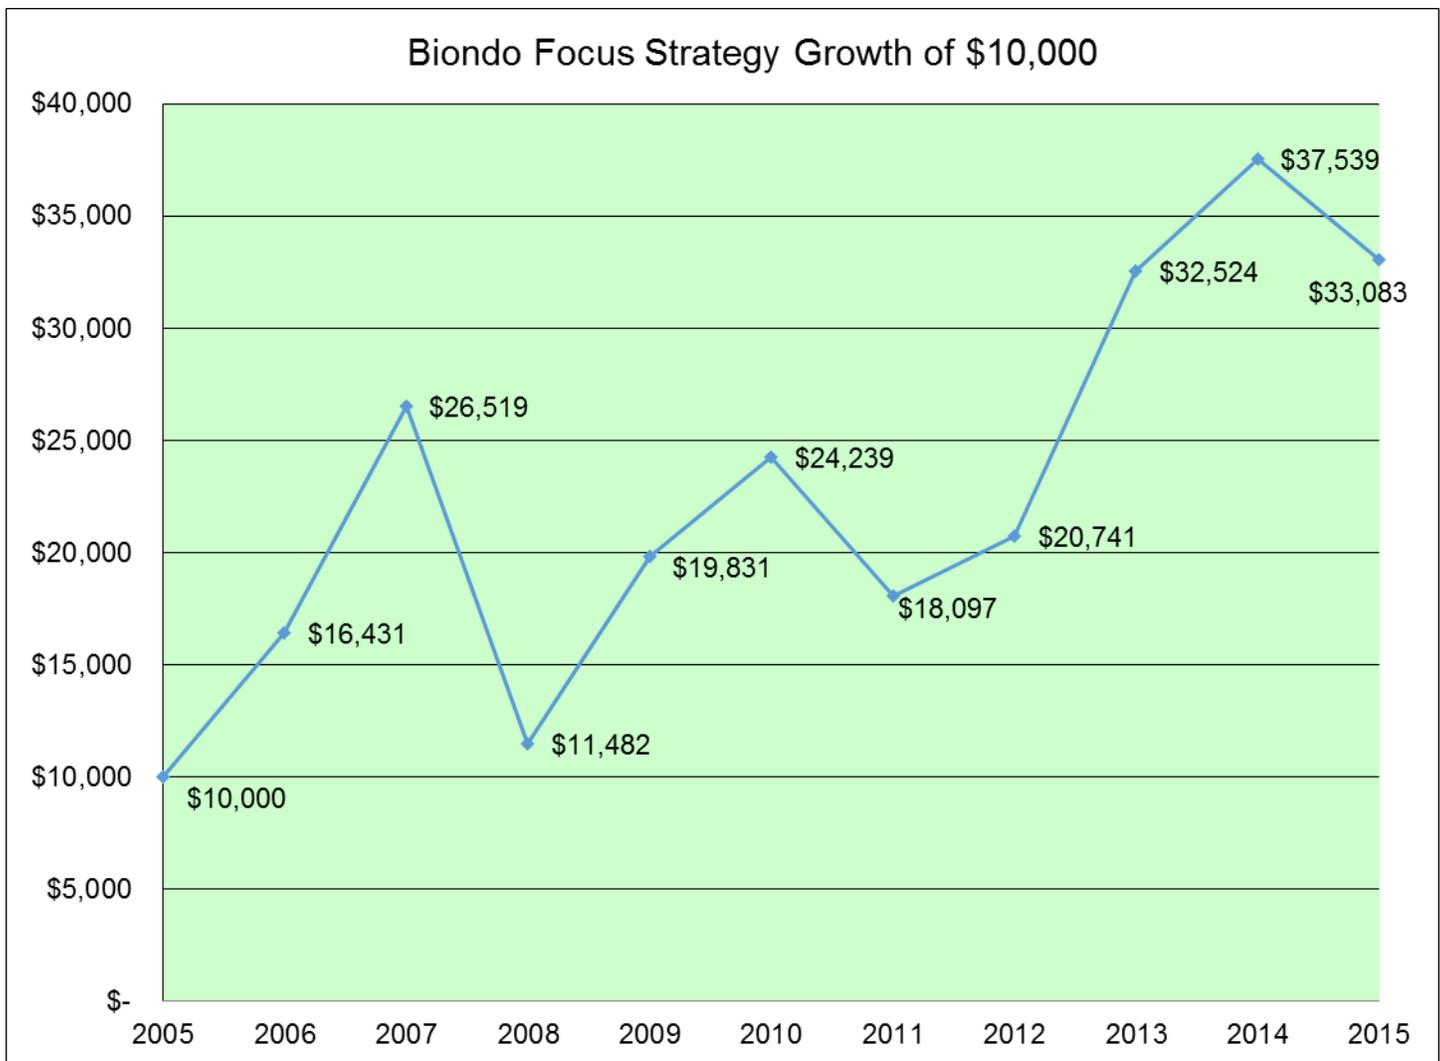

The adviser provided the information shown below and calculated the performance information. The Focus Strategy accounts' returns shown include realized and unrealized gains plus income, including accrued income. These returns have been adjusted to reflect the estimated expenses of the shares of the Fund, including 12b-1 fees, in place of the fees charged for the Focus Strategy separate accounts. The performance is shown net of estimated operating expenses of 3.05% (excluding the expenses incurred within underlying funds, such as mutual funds, closed-end funds or pooled investment vehicles) for the first year of operations of the Fund. Results include the reinvestment of dividends and capital gains. Returns from cash and cash equivalents in the Focus Strategy accounts are included in the performance calculations, and the cash and cash equivalents are included in the total assets on which the performance is calculated. The Focus Strategy accounts were valued on a daily basis.

Focus Strategy Accounts
Average Annual Total Returns
For the periods ended December 31, 2014

	1 Year	5 Year	Since Inception ¹
Focus Strategy Accounts (including estimated expenses) ²	-11.87%	6.42%	12.71%
Standard & Poor's 500 Index ³	1.38%	12.57%	7.30%

1. The inception date for the Focus Strategy Accounts is December 31, 2005.
2. As of December 31, 2015, the Focus Strategy Accounts totaled \$31,571,755.
3. The Standard & Poor's 500 Index is an unmanaged index consisting of 500 stocks chosen for their market size, liquidity and industry group representation, and is considered to be representative of the U.S. equity market. Unlike a mutual fund, it also does not reflect any trading costs or management fees.

HOW SHARES ARE PRICED

The net asset value (“NAV”) and offering price (NAV plus any applicable sales charges) of Fund shares is determined as of the close of the New York Stock Exchange (“NYSE”) (normally 4:00 p.m. Eastern Time) on each day the NYSE is open for business. NAV is computed by determining the aggregate market value of all assets of the Fund less its liabilities divided by the total number of the Fund’s shares outstanding ((assets-liabilities)/number of shares=NAV). The NYSE is closed on weekends and New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account the expenses and fees of the Fund, including investment advisory, administration, and distribution fees, which are accrued daily. The determination of NAV of the Fund for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, securities are valued each day at the last quoted sales price on each security’s principal exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers’ Automated Quotation System (“NASDAQ”) National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith in accordance with procedures approved by the Board, and evaluated by the Board quarterly as to the reliability of the fair value method used. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value team composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) Adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s securities. Although not part of the adviser’s principal investment strategy, the Fund may invest in foreign securities that are primarily listed on foreign exchanges that may trade on weekends or other days when the Fund does not price its shares, the value of the Fund’s portfolio may change on days when you may not be able to buy or sell Fund shares. In computing the NAV of the Fund, the adviser values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio occur before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the adviser or sub-adviser may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of a Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short-term traders.

With respect to any portion of a Fund’s assets that are invested in one or more open-end management investment companies that are registered under the 1940 Act, the Fund’s net asset value is calculated based upon the net asset values of the registered open-end management investment companies in which the Fund invests, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Purchasing Shares: The Fund may not be available for purchase in all states. You may purchase shares of the Fund by sending a completed application form to the following address:

via Regular Mail
The Biondo Focus Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
The Biondo Focus Fund
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-800-672-9152 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$100 on specified days of each month into your established Fund account. Please contact the Fund at 1-800-672-9152 for more information about the Fund's Automatic Investment Plan.

Minimum and Additional Investment Amounts: You can open an account with a minimum initial investment of \$1,000 for regular accounts and \$500 for retirement plans and make additional investments to the account at any time with as little as \$100. There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to the Fund. The Fund will not accept payment in cash, including cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern time) will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the *name* of the Fund,
- the *dollar* amount of shares to be purchased,
- a completed purchase application or investment stub, and
- check payable to "The Biondo Focus Fund".

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Funds at 1-800-672-9152 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail
The Biondo Focus Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail
The Biondo Focus Fund
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds, which are equal to number of shares times NAV less any applicable deferred sales charges or redemption fees, will be sent by mail to the address designated on your account or sent electronically, via ACH or wire, directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-800-672-9152. The redemption proceeds normally will be sent by mail or electronically within three business days after receipt of your telephone instructions. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan: If your individual account, IRA or other qualified plan account has a current account value of at least \$50,000, you may participate in the Fund's Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$500 on specified days of each month into your established bank account. Please contact the Fund at 1-800-672-9152 for more information about the Fund's Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than \$250,000 or 1% of the Fund's assets. The securities will be chosen by the Fund and valued at the Fund's net asset value. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of a request in "good order." If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in “good order.” To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- the request must identify your account number;
- the request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- if you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$100,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund,
- you request that a redemption be mailed to an address other than that on record with the Fund,
- the proceeds of a requested redemption exceed \$100,000,
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record, or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Redemption Fee: For shares held less than 30 days, the Fund will deduct a 2% redemption fee on your redemption amount if you sell your shares. Shares held longest will be treated as being redeemed first and shares held shortest as being redeemed last. The redemption fee does not apply to shares that were acquired through reinvestment of distributions. Shares held for 30 days or more are not subject to the 2% fee.

Redemption fees are paid to the Fund directly and are designed to offset costs associated with fluctuations in Fund asset levels and cash flow caused by short-term shareholder trading.

Low Balances: If at any time your account balance falls below \$1,000 (\$500 for retirement accounts), the Fund may notify you that, unless the account is brought up to at least \$1,000 (\$500 for retirement accounts) within 30 days of the notice, your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$1,000 (\$500 for retirement accounts) due to a decline in NAV. The Fund will not charge any redemption fee on involuntary redemptions.

Exchanging Shares: An exchange involves the redemption of all or a portion of the shares of one fund and the purchase of shares of another fund. You may exchange all or a portion of your investment from the Biondo Growth Fund, which is offered by a separate prospectus, to the Biondo Focus Fund, or vice versa. Any new account established through an exchange will be subject to the minimum investment requirements described above. Exchanges will be executed on the basis of the relative NAV of the shares exchanged. The exchange privilege may be exercised only in those states where the shares of the Fund being acquired legally may be sold.

An exchange is considered to be a sale of shares for federal income tax purposes on which you may realize a taxable gain or loss, but would not be subject to the Fund’s 2% redemption fee on shares exchanged within 30 days of purchase.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of a Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income annually and net capital gains annually in December. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

Other Reporting and Withholding Requirements. Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by a Fund after June 30, 2014 and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by the Fund after December 31, 2016. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. A Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisors to determine the tax consequences of owning the Fund's shares.

FREQUENT PURCHASES AND REDEMPTION OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of a Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy"; and
- Assessing a redemption fee for short-term trading.

The Fund and its adviser may further evaluate a shareholder's transactions to determine whether the trading pattern suggests an ongoing market timing strategy. Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

The redemption fee, which is uniformly imposed, is intended to discourage short-term trading and is paid to the Funds to help offset any cost associated with such short-term trading. The Funds will monitor the assessment of redemption fees against your account. Based on the frequency of redemption fees assessed against your account, the adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchanges into the Fund.

The Fund reserves the right to reject or restrict purchase or exchange requests for any reason, particularly when a shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the adviser will be liable for any losses resulting from rejected purchase or exchange orders. The adviser may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of funds. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions, assessing the Fund's redemption fee and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. However, the Fund will ensure that financial intermediaries maintaining omnibus accounts on behalf of the Fund enter into an agreement with the Fund to provide shareholder transaction information, to the extent known to the financial intermediary, to the Fund upon request.

DISTRIBUTION OF SHARES

Distributor: Northern Lights Distributors, LLC, 17605 Wright Street, Omaha, Nebraska 68130, is the distributor for the shares of the Fund. Northern Lights Distributors, LLC is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

Distribution (12b-1) and Shareholder Servicing Fees: The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plan for Investor Class shares (the "Plan"), pursuant to Rule 12b-1 of the 1940 Act which allows the Fund to pay the Fund's distributor an annual fee for distribution and shareholder servicing expenses of 0.25% of the Fund's average daily net assets. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The Fund's distributor and other entities are paid pursuant to the Plan for distribution and shareholder servicing provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by the FINRA due to the recurring nature of 12b-1 Fees.

Additional Compensation to Financial Intermediaries: The Distributor, its affiliates, and the Fund's adviser and their affiliates may each, at their own expense and out of their own legitimate profits, provide additional cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the 12b-1 Fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The distributor may, from time to time, provide promotional incentives, including allowance and/or payment of up to the entire sales charge, to certain investment firms. Such incentives may, at the distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional commissions.

Householding: To reduce expenses, we mail only one copy of the prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-800-672-9152 between the hours of 8:30 a.m. and 6:00 p.m. Eastern Time on days the Fund is open for business or contact your financial institution. We will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information for the Fund has been derived from the financial statements audited by BBD, LLP, whose report along with the Fund's financial statements are included in the Fund's December 31, 2015 annual report, which is available upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Period

	Investor Class					
	Year Ended December 31, 2015	Year Ended December 31, 2014	Year Ended December 31, 2013	Period Ended December 31, 2012 *	Year Ended January 31, 2012	Period Ended January 31, 2011 ⁽¹⁾
Net asset value, beginning of period	\$ 16.18	\$ 13.92	\$ 8.91	\$ 9.38	\$ 10.61	\$ 10.00
Activity from investment operations:
