N/A – Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

The Focus Composite contains all discretionary, fee-paying portfolios invested in a concentrated equity strategy generally consisting of 25 or less securities that pursues stocks with growth characteristics in all market capitalizations. Exchange traded funds (ETF's) may be used when appropriate to represent a market component of the portfolio. The composite was created on January 1, 2006 and includes portfolios with a minimum market value of \$10 thousand.

The composite returns include reinvestment of dividends and earnings, and are calculated net of withholding taxes. Assets and performance information are expressed in US Dollars. To be consistent with the Firm's ADV filing as required by the SEC for registered investment advisors, Total Firm Assets are shown gross of margin balances. Bundled fee accounts are included in the Focus Composite. These fees include investment management fees, consulting fees, transaction fees, custodial fees and other administrative costs. Some composite assets are traded through the firm's affiliated broker-dealer which are typically not charged commission. The Gross-of-Fees Return presented is reduced by trading expenses, or the entire bundled fee if trading expenses cannot be determined. The Net-of-Fees Return presented is calculated using actual fees, and is the accounts' gross-of-fees returns reduced by investment management fees, or the entire bundled fee if investment management fees cannot be determined. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

Leverage/Derivatives may represent a material portion of the composite strategy. Margin may be used for cash needs to implement and maintain the strategy. Short selling securities and option strategies are deployed at times as a means to enhance returns and/or exit positions. There is no appropriate benchmark for comparison to the composite due to the concentrated nature of the strategy. The Standard & Poor's 500 Index, the Dow Jones Industrial Index and the NASDAQ Composite Index are provided for informational purposes only. These and other indices that may be shown do not reflect the deduction of advisory fees, commissions or other transaction charges.

Asset weighted standard deviation of the composite members' annual performance is used as a measure of dispersion and is not presented for the years the Focus Composite consisted of five or fewer portfolios for the entire period. The three-year annualized standard deviation of the monthly returns for the composite, the S&P 500, the NASDAQ Composite and the DJIA, respectively, are 37.72%, 18.71%, 20.13% and 17.41% as of 2011; 27.58%, 15.09%, 17.77% and 13.43%, as of 2012; 27.96%, 11.94%, 13.53% and 10.99% as of 2013; 23.70%, 8.97%, 11.28%, and 9.02% as of 2014; and 20.49%, 10.47%, 11.80% and 10.78% as of 2015.

The standard fees charged by the Firm are negotiable and generally up to a maximum of 2% of assets under management on an annual basis and may vary by client. The fee schedule as described in our form ADV Part 2 for the Focus Strategy is 2.00% for assets through \$1 MM, 1.75% from \$1MM through \$5MM, 1.50% from \$5MM through \$10MM, and a negotiated fee for assets over \$10MM, based on quarter ending gross market value.

Biondo Investment Advisors, LLC (the "Firm") is a registered investment advisor specializing in Growth Investment Management. The Advisors research and identify companies with exceptional growth prospects and capable management teams that specialize in niche business segments with high barriers to entry for competitors. Prior to June 2004, the Firm operated as an independent group within a registered investment advisor. Upon separation from the investment advisor, the Firm's name changed from The Biondo Group to Biondo Investment Advisors, LLC, and the investment management team remained intact. A complete list and description of all of the Firm's composites is available upon request.

Biondo Investment Advisors, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Biondo Investment Advisors, LLC has been independently verified for the period February 1, 1991 through December 31, 2015. Verification assesses whether (1) the Firm has complied with all the composite construction requirements of the GIPS standards on a Firm-wide basis and (2) the Firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Focus Composite has been examined for the periods January 1, 2006 through December 31, 2015. The verification and performance examination reports are available upon request.

The information set forth regarding securities and investment advice was obtained from sources which we believe reliable but we do not guarantee its accuracy or completeness. Neither the information nor any opinion expressed constitutes a solicitation by us of the purchase or sale of any securities. The performance quoted above represents past performance and current performance may be lower or higher than the performance date quoted. Past performance does not guarantee future results as investment returns may vary from time to time depending upon market conditions and the composition of the composite portfolio.
